Using Caption Pro as an External Editor with Adobe Lightroom Classic

Adobe Lightroom is widely used for editing and managing photos. The Classic version includes the ability to specify external applications which can be used for editing functionality not available in Adobe Photoshop. External applications can be specified via the External Editing tab of the Edit->Preferences menu option which appears as below:

eneral Presets	External Editing	ile Handling	Interface	Performance	Lightroom Sync	Display	Network			
Edit in Adobe Photo	ishon 2022	ine i naritali ng	Interface	- criorinarice	Light com by he	Display	incentori			
			16-hit DroPhot	to RGR is the rec	ommended choice fo	r hest preser	vina			
File Format	: TIFF	~	color details fr	om Lightroom.		, pest prese				
Color Space	: ProPhoto RGB	\sim								
Bit Depth	: 16 bits/componer	n 🗸								
Resolution	: 240									
Compression	: ZIP	~								
Additional External	Editor									
Preset	: Custom									~
Application	: SetTags.exe								Choose	Clear
File Format	: TIFF	\sim	8-bit files are s plug-ins, but v The sRGB col	smaller and more vill not preserve f or space cannot e	compatible with va fine tonal detail as w encompass the full ra	ious program ell as 16-bit o nge of colors	s and lata.			
Color Space	: sRGB	\sim	available with	in Lightroom.						
Bit Depth	8 bits/component	\sim								
Resolution	: 240									
Compression	: LZW	~								
Stack With Original										
	Stack With Ori	iginal								
Edit Externally File	Naming: IMG_0002-E	dit.psd								
Template	: Custom Settings								~	
Custom Text								Start Number:		
								_		

Click the Choose button in the Additional External Editor panel, and select the SetTags.exe file in the folder C:\Program Files\Aleka Consulting\Caption Pro. Then right-click on the selected photo in Lightroom and select Edit In->Edit in SetTags.exe as shown below:

			Library Develop Map
Text	Attribute Metadata None		Filters Off ≎
Tex C	Open in Loupe Open in Survey Open in Reference View Set as Reference Photo Lock to Second Window Show in Explorer Go to Folder in Library Go to Collection		
	Edit In	\rightarrow	Edit in Adobe Photoshop 2022
	Photo Merge	>	Edit in SetTags.exe
	Enhance	Ctrl+Alt+I	Open as Smart Object in Photoshop
	Set Flag	>	Merge to Panorama in Photoshop
	Set Rating	>	Merge to HDR Pro in Photoshop
	Set Color Label	>	Open as Layers in Photoshop
	Add Shortcut Keyword Add to Quick Collection		

Select Edit Original to change the loaded photo or Edit Copy to create a new captioned file.

	with Lightroom Adju	stments	
Apply the Lightro The copy will not	om adjustments to a copy of t contain layers or alpha channe	he file and edit that on 比.	2
O Edit a Copy			
Edit a copy of the Lightroom adjus	original file. tments will not be visible.		
	1		
	j		
Lightroom adjus	tments will not be visible.		
Copy File Option File Format:	TIFF V		
 Copy File Optic File Format: Color Space: 	ns TIFF ~ sRGB ~		
Copy File Option File Format: Color Space: Bit Depth:	TIFF V sRGB V 8 bits/component V		
Copy File Optio File Format: Color Space: Bit Depth: Resolution:	TIFF V sRGB V 8 bits/component V 240		

Caption Pro then appears with the selected photo loaded:

Ensure that Caption Pro Options include overwriting the original file, click Add to Image and close Caption Pro. If Edit Original is selected, the selected file is replaced by the captioned one:
